# Lunar DNA

## (Divine Natural Alignment)

LUNAR DNA (Divine Natural Alignment).....The Moon is an amazing magnetic force of nature. Science recognises how the moon influences our finely-tuned Mother-Nature to thrive and regenerate. It is widely accepted that the Moon affects Earth's oceans, and impacts on the rhythm and cycles of life, for example, women's hormonal and reproductive cycles and our emotions. It has been proven that mental instability is more prevalent at the time of the Full Moon.

The waxing and waning cycle of the Moon, together with the astrological sign it is aligned to each month, creates a certain Lunar DNA Energy Frequency. This potent magnetic energy force can influence you emotionally, mentally and spiritually.

The New Moon aspect of the cycle represents a seeding time – a new beginning. As the monthly Moon cycle progresses, the DNA Energetic Force increases and this can have a powerful effect on you personally.

Designed for those who acknowledge they are a "Spiritual Being Having a Physical Experience"
